
DUBAI VIRTUAL AIRSHOW 2018 – PROCEDURES

Start of Show (Fly In)

All spectators must arrive at OMDW by 1750Z. *No aircraft are permitted to enter the airspace after that time. From 1755Z, no departures from the airspace will be permitted.* Aircraft not wanting to fly in must spawn at a gate in the North East of OMDW and push back to vacate their gate immediately. They must then proceed to the terminal area (North West of the field). *All spectators must be in a Cessna 172 Skyhawk, Cessna 208 Caravan or TBM930.* Recommended Fly-In departure airport are OMDB and OMAA, both of which will have ATC provided on Discord.

Start of Show (Opening Ceremony)

At 1800Z, the allocated performance team to conduct the opening ceremony will spawn in and immediately push back for the departure runway. After departure, they will perform their show, before landing and despawning *as soon as they exit the runway.*

Main Show & Static Displays

The main show will begin at 1810Z. For the duration of the Main Show, the following procedures will be followed;

The aircraft must spawn into their gate(s) in the North East of the Field 5 minutes before their allocated performance time and immediately push back and taxi for the runway in use. After the previous performance has exited the runway, they must promptly enter the runway and depart. After their show, they must land and despawn as soon as they exit the runway.

Static Displays of VA Aircraft will be on show at the North West of OMDW for the duration of the show. Feel free to look around and take some size comparison screenshots, but don't go inside/under them.

End of Show (Closing Ceremony)

At 1800Z, the allocated performance team to conduct the opening ceremony will spawn in and immediately push back for the departure runway. After departure, they will perform their show, before landing and despawning *as soon as they exit the runway*.

End of Show (Fly Out)

Aircraft will be permitted to depart after the Closing Ceremony aircraft have landed. *All spectators must be in a Cessna 172 Skyhawk, Cessna 208 Caravan or TBM930.* Recommended Fly-Out arrival airports are OMDB and OMAA, both of which will have ATC provided on Discord.

ATC

Air Traffic Control (ATC) will be provided on Discord for as much of the show as possible. If you would like to become a Controller, please PM @Velocity23 on Discord. See the discord server (<https://discord.gg/eRxTqnS>) sfor more info.
